The CLT10 is a college preparatory exam for 9th and 10th graders and an alternative to the PSAT® and the ACT Aspire®. It is norm-referenced, can be taken on paper or online, and assesses English, mathematical, and critical reasoning skills. The CLT10 helps students hone their skills and target areas of weakness before taking the CLT or any college entrance exam.

Contains 3 sections:
- Verbal Reasoning (40 minutes)
  - 40 questions of textual comprehension and textual analysis
- Grammar/Writing (35 minutes)
  - 40 questions of grammatical editing and improvement
- Quantitative Reasoning (45 minutes)
  - 40 questions of logic and mathematics

The CLT10 is open to every student who wishes to take it, regardless of educational background. The "classic" in Classic Learning Test refers to its use of the greatest and most enduring texts that have informed and shaped society. Although these texts are featured prominently in a classical education, the CLT10 instead emphasizes intellectual aptitude and achievement which is not limited to classical curricula.

The CLT10 can be taken in-school on dates designated by the administrators upon registration. Partner schools that administer the CLT10 receive full support from the Classic Learning Test (CLT) team before and after testing. This includes special pricing, analytics reports for individual students and the entire testing group, and a dedicated CLT representative to assist with the testing process and analytics interpretation.

See the next page for distinctives, format, and specifics of the CLT10.
