

An Overview of the ONLINE CLT7-8 EXAMS

The CLT7 and the CLT8 are designed to measure high school readiness for 7th and 8th graders, and to provide a diagnostic or summative record for educators. They are norm-referenced and assess reading, writing, mathematics, and critical reasoning skills.

The **online CLT7 and CLT8** each contain three sections:

1. Verbal Reasoning (30 questions)
 - Textual comprehension and textual analysis
2. Grammar/Writing (30 questions)
 - Grammatical editing and improvement
3. Quantitative Reasoning (30 questions)
 - Logic and mathematics, including pre-algebra, algebra, and geometry

The CLT7 and CLT8 are open to every student and school, regardless of educational background. The “classic” in Classic Learning Test refers to its use of the greatest and most enduring texts that have informed and shaped society. Although these texts are featured prominently in a classical education, the CLT7 and the CLT8 instead emphasizes intellectual aptitude and achievement which is not limited to classical curricula.

The CLT7 and CLT8 can be taken in-school during a window of dates offered in the fall, winter, and spring. Partner schools that administer CLT7 and CLT8 receive full support from the Classic Learning Test (CLT) team before and after testing. This includes special pricing, analytics reports for individual students and the entire testing group, and a dedicated CLT representative to assist with the testing process and analytics interpretation.

See the next page for distinctives, format, and specifics of the CLT7 and CLT8 exams.
